

CONSUMER PRODUCT DISPLAY

Abstract

5 The present invention relates to a consumer product display comprising
of a display strip and a plurality of consumer products. The display strip defines
a front face and a back face that combine to define a lower section and an upper
section. The upper section includes a hanging means. The front face, at the
lower section thereof, is characterized by an exposed adhesive, to which the
10 plurality of consumer products is separately and removably maintained.
